*Bear head dream landscape 1*

Acrylic paint on cardboard  
Approx 36 in x 45 in x .25 in

I grew up in Texas. When you drive out in the country, buildings approach and recede as you drive across miles and miles of the state..I painted these two landscapes to document what I saw in my dream. There are additional paintings related to this dream, a man in a suit with a cut off bear head. I just sat down and painted these two pieces and really thought I was hot shit that day because that never happens to me and I couldn't repeat it if I tried.
