

Cliona Gunter would like to donate/disburse accumulated art work from 2008- 2016 to an institution. The work is emotional, intuitive and wordy.

Some works are related to childhood and family. Some works are related to things that happened to friends between 2008 and 2016. Pieces are large, acrylic and mixed media on clean cardboard, cotton rag, wood. Some pieces are unpainted routed pine with words and images.

The work is large and can no longer be stored and maintained. If an institution does not collect this archive, it could be lost.

The following images are a sampling of pieces, not all the pieces in this archive.
